

CloudQnect's

DevOps Assessment Service

In 2 - 4 weeks* learn how to make your Salesforce DevOps scalable.

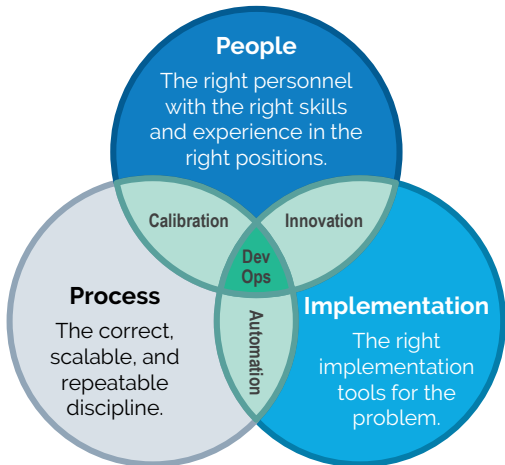

*For a standard DevOps Assessment

- Are your releases taking days or weeks vs. minutes or hours?
- Do your releases require multiple developers vs. just the release manager?
- Do your releases have multiple defects/bugs?

If you have answered yes to any of the above, you will benefit from a DevOps Assessment.

Successful Salesforce DevOps is comprised of 3 co-dependent pieces

Average Results our Clients Achieve

95+%

Reduction in Bugs

4X

More Releases

40%

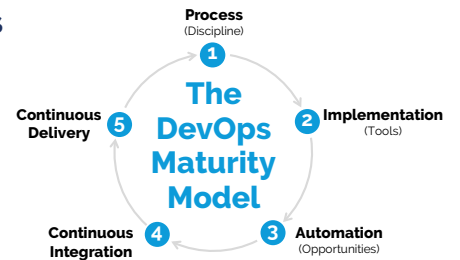

Increased Salesforce ROI

What will a DevOps Assessment Provide?

1. A report and DevOps Maturity grade for your current DevOps state.
2. A report and forecasted DevOps Maturity grade for your future DevOps state.
3. An implementation plan on how to get to the forecasted future state.

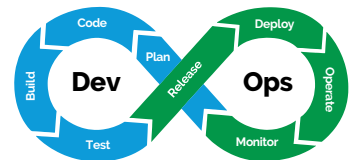

Maturity begins with discipline.

- ✓ Discipline
- ✓ Automation
- ✓ Speed

CloudQnect DevOps: Driving More Success with Salesforce
